MEMORANDUM FOR: Chief, Security Support Division

FROM: [REDACTED]  
Chief, External Activities Branch

SUBJECT: Weekly Report

1. Recently an NE Division employee advised the External Activities Branch that she was deliberately struck and knocked off of her bicycle by a jogger on the C & O Canal Tow Path. Although the U.S. Park Police tracked down the perpetrator, they were unable to take any action as he is on the Staff of the British Embassy and has diplomatic immunity. The Park Police suggested that our employee "stay out of his way" if she sees him again and she agreed to do so.

2. Recently a communications employee, who did not give his name, advised the External Activities Branch that he knew of two DDO employees who are operating amateur radio stations [REDACTED] respectively, without Headquarters approval. Although the communicator refused to provide the names of the employees concerned, cables to these stations resulted in identification and confirmed that the communicator's allegations were fact. In both instances, the employees, who were Operations Officers, agreed to shut down the stations immediately. In light of recent press allegations against the CIA in [REDACTED] it was particularly important that the [REDACTED] amateur radio station be taken off the air immediately.
